

# FUKSIPASSI KEY CHAIN

Turn on the heat press and set the temperature to 200 C° and time to 40 sec.

These are what you need.

Fold the paper like this.

Place the key chain inside the paper "pocket".

Use red tape (heat resistant) to wrap paper around the key chain.

Place the key chain inside the heat press like this.

Turn the handle down until it locks. The clock starts to count down. After 40 seconds the handle opens up automatically.

Turn the key chain upside down and repeat the previous process.

Remove the paper and enjoy your new gorgeous key chain!

Turn off the heat press.
